PRODUCT CODE: FOX-MFLB-BIL

EAN: 8717344-310420

MSRP: \$24.95

## CONTENTS:

- 1 playing board
- 9 geometrical pieces (3 shapes x 3 colors)
- 1 booklet that includes 80 puzzles and their solutions
- How to play instructions

*Meta-Forms wonderfully illustrates the potential of serious learning through play. The game uses clear visual clues to develop solid logical thinking in young players. Children move through the puzzles at their own pace and enjoy flexing their mental muscles in the process. In my children's school the game is a big success and the parents' association has bought a MetaForms for every classroom.*

*Jon R. Star Ph.D.  
Graduate School of Education, Harvard University*

## BENEFITS:

- Develops deductive reasoning skills and strengthen verbal expression accuracy in children and adults!
- Players advance at their own pace!
- Language neutral - Children can play before knowing how to read or count!
- Endorsed by Prof. Jon Star of Harvard University and by Don Green of Yale University!

Discover the award-winning puzzle game that has amassed a following of parents, teachers and children around the world for 25 years. Use simple visual clues to place nine geometric shapes into a grid and find the unique solution to each puzzle.

Meta-Forms puzzles are divided into 6 color-coded levels of difficulty. The puzzles are easy enough for young children to start playing acquiring solid reasoning and logic skills. While Meta-Forms is a wonderful educational game for kids, it also provides a challenge for adults.
