Game Rules

DIG IT!

A game by Alex Polonsky

Graphic Design and Illustration: Ariel Laden

Plastic Design: David Darki

For a single player, aged 7 and over.

Contents

A special game box including:

A puzzle booklet (50 puzzles & solutions)

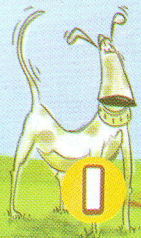

9 playing pieces in different shapes

3 bones in different sizes

An instructions booklet

Object of the game

Try to reveal the bone hidden under the shapes of the puzzle.

Game set-up

Flip over the cover and reveal the playing board.

Place the puzzle booklet on the table.
Place the bone and playing pieces on the board as shown on the puzzle card.

2

Levels of difficulty

The Puzzles are arranged in four levels of difficulty going from basic to complex puzzles.

Note!

Each puzzle has only one possible solution!!

Game play

Shift, turn and/or flip the pieces on the board until the bone is fully revealed. You can move **only one piece at a time** to a vacant space on the board.

The bone cannot be moved.

The Bones

The game includes bones of different sizes:

Small bone

Big bone

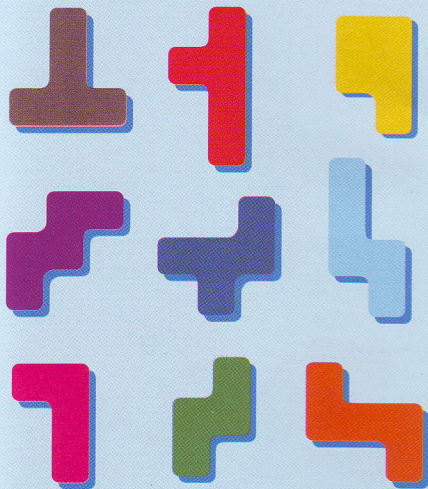

Double bone

3

Playing pieces

There are nine challenging pieces in the game, in each puzzle you will play with three of them:

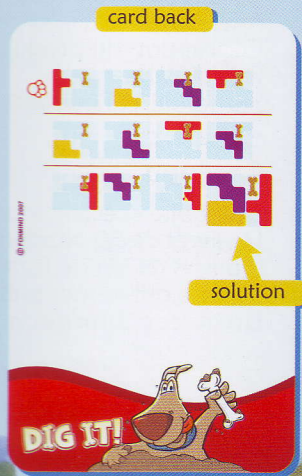

4

Checking the solutions

On the back of each puzzle card you will find the sequence of steps leading to the solution.

Each step shows one piece in its new position, the other pieces are shadowed.

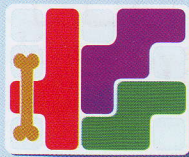

The enlarged picture shows the solution and can be used as a hint while trying to solve the puzzle.

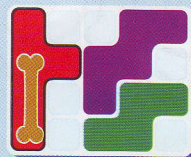

5

Example

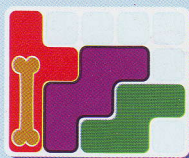

1 The bone is hidden

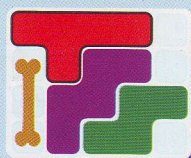

2 Flip the red piece

3 Shift the purple piece

4 Turn the red piece

...and the bone is out!
