The object of the game is to be the player who, by thinking ahead, forces their opponent to press down the last bubble. On a player's turn, they select a row and press down any number of bubbles on that row. The opponent then presses down any number of unpressed bubbles in a row of their choice. The player left to press the last bubble on the board loses the round. Once a match is over, simply flip the board to start a new round. Last One Lost is compact and has no loose or noise-making pieces, making it great for playing in a car, bus, or plane, at a restaurant, or at school. It's also water resistant, so you can play it while camping or at the beach!

## Puppy Love™

The dog run is busy with excited dogs running around freely while others are pulling their masters in different directions. But there is a logic behind the frenzy.

In the game of Puppy Love™, players will help their dogs attain the rank of Top Dogs by astutely manoeuvring their canines into point-scoring positions such as licking another dog's face, sniffing or marking their territory on the fire hydrant.

Moving your dogs around the board is simple, however, outsmarting the other dog owners maybe more devious than you think and will require an old dog to learn new tricks!
