An epic encounter between the world's savviest alchemists is drawing universal attention.

Kamisado™

Kamisado is a game of pure skill and strategy! There are no dice, cards or any other chance element. It's just you against your opponent! The aim in each round is to be the first to get your tower to the opposite side of the board. It sounds easy, but the twist is that you can only move a tower if its colour matches the colour of the square that your opponent last moved to.

The situations continue to become more complex and challenging, until one player accumulates the required winning total.

Museum Heist™

A world class museum exhibition of precious artworks has arrived in town. Trailing it are 7 shady characters determined to get their hands on some of these treasures. They are aware of each other's presence in town. The museum's extensive security is no match for their abilities and wits; their only obstacle is their opponents' plans and treachery.

In Museum Heist™, you will use psychology, bluff, and deceit to uncover the other players' identities and get your hands on the museum's prized art objects! **Incidentally, all the precious art objects depicted in the game were in fact stolen at a point in time.*
